Half-Baked. Fully Roasted.

The World's Richest Canned Beer

Ten FIDY is a luscious, Rocky Mountain take on the Russian Imperial Stout style. It's slowly crafted with gargantuan amounts of five different malts and American hops, and a hearty dose of roasted barley.

Our glorious version of this royal style features a viscous body, an espresso-like head and neck-deep flavors of dark-roasted malts, chocolate and coffee. Ten FIDY's massive amount of hops (approx. 98 IBUs), muscle (approx. 10% ABV) and obsidian charm are rounded out by a hearty addition of oats.

This dicephalous dark beer is an opaque, opulent, gentle-giant masterpiece.

Originally our 2006 winter seasonal beer, we now treat select retailers and bars with this limited-release specialty beer. Ten FIDY is sold in four packs of cans and in kegs.

Ten FIDY?

Perhaps it's a hybrid acronym for the Do-It Yourself mantra. Or a reference to the beer's strength. How about a nod to the beer's winter-weight viscosity?

Four-Pack Power

The four pack makes for a great convenience that's better in value and volume than a pair of bombers. And the 12-ounce cans make FIDY especially portable and fresh, and mean no more wrestling with an entire bomber when sipping solo.
